New York, NY - Jaqueline Madden announces the debut of her new song, "**Can't Let Go**", on iTunes and other sites throughout the world. Jaqueline, a popular cast member on **VH1'S** hit reality show "**You're Cut Off**" which airs throughout the summer of 2010, surely sheds the program's princess image and shows that there's a lot of talent behind that tiara with the release of this song.

Jaqueline, 24, is a talented singer/songwriter, actress and dancer who studied at the New York Conservatory for Dramatic Arts. "**Can't Let Go**" is an original, powerful pop, hip-hop and groove infused ballad full of soaring vocals and musical surprises. The accompanying video can be found on YouTube and at www.JacquelineMadden.com.

The video and song are produced by **Martha Byrne** and **John McCracken** for John McCracken Productions. Martha Byrne is a well-respected and Emmy-award-winning producer and actress, known best for her role as Lily Snyder on *As the World Turns*, as a writer for the *Bold and the Beautiful* and as the star/creator of the hit webseries *Gotham* (www.Gothamtheseries.com). John McCracken is a former A&R Executive for EMI Music Group as well as a producer/musician/arranger with over 75 music, TV and film production credits including a certified Gold record as producer for Broadway legend Michael Crawford's *On Eagle's Wings* (Atlantic Records).

The track is co-arranged by **Billy Stein** (piano), **Mark Mangold** (keyboards, drum programming and backing vocals) and John McCracken (guitar synthesizer, drum programming). Billy Stein is a well-known keyboardist and arranger who is currently Music Director for the upcoming Broadway production of **Spiderman**, a high-profile collaboration between acclaimed film and Broadway director Julie Taymor and the multi-platinum selling band U2.
